

EX. LETTER OF INTEREST

HAND WRITTEN LETTER WILL RECEIVE MORE ATTENTION

Dear Coach Braunston,

My name is Tracy @#\$. I am interested in talking with you about attending University of Wisconsin and participating in your soccer program. I am in my senior year at Albuquerque Academy in Albuquerque, New Mexico. I have been going to the Academy since my 6th grade year. In addition to the required curriculum last year I took AP United States History and IV AP Spanish, and as my elective I took Anatomy and Physiology. Presently I am enrolled AP Physics B and AP Calculus AB. My cumulative GPA is 4.36. I have taken the ACTs this spring and received a cumulative score of 28 and I plan to retake it this fall. As for the SAT II's I am planning to take it fall of 2004. I love to play soccer and would love to continue playing soccer at a collegiate level.

For high school, I have been on a starter on varsity since my sophomore year. In addition that year I was named to first team All-District and honorably mention All-State and we won the State Championship for the third straight year. As for my junior year I was named to first team All-District, second team All-State, and second team All-Metro. I also play basketball in which I have lettered since my freshman year. The last two years I was the starting point guard and named to the first team All-District. My junior year I was captain of my basketball team as well.

This past year I joined Rio Vista '87, however I have guest played and practiced with them in addition to my club team for the past three years. My club team prior to Elite was RVFC '88, a year younger. RVFC '88 was formed two years ago as the Rio Vista Showcase team and for the past two years we have won the State Championship. When the Regional IV championships were held in Salt Lake City in 2002 our team advanced to the quarterfinals. Our team has competed in tournaments such as Presidents Day in Phoenix and Nomads in California. Also prior to the forming of RVFC '88 I was on Rio Vista Salsa, which competed in the Norway Cup in Oslo, Norway and placing third out of twenty-four teams in the tournament. I also have taken part in the New Mexico State ODP team; my birth year is 1987. This was my third year on the state team, and my second time participating in the Region IV Camp. I elected not to participate in this year's ODP because I had an opportunity to live with a host family in Zaragoza, Spain for the month of July.

I have been involved in community service doing a variety of different things, such as help coaching skills clinics for a U-10 girls team within our soccer club and also participating in pet therapy. Pet therapy entails that our dog goes through a rigorous training program and the after completing the course they are allowed to go to the hospital to comfort patients and their families. I hope to stay in contact with you as my time for college soccer approaches. Your school interests me because of its outstanding reputation in academics as well as its successful soccer program. I would like to e-mail you the tournament schedules as they become available. If you plan to attend any of these tournaments I would appreciate your consideration.

LETTER OF INTEREST(cont.)

Thank you for your time.
